

# Triple Plaza Lite Guidelines

## SLIDER & FIXED

- Unless otherwise specified, the bottom horizontal bar on a triple Plaza grille option will be located 32" down from the **top of the window frame**. It will be the same regardless of window height.
- The vertical bars will have the same spacing as a standard grille spacing for a unit of the same width.

## PATIO DOORS

- Unless otherwise specified, the bottom horizontal bar on a triple Plaza grille option will be located 38" down from the **top of the door frame**. It will be the same regardless door height.
- The vertical bars will have the same spacing as a standard grille spacing for a unit of the same width.

**IMPORTANT:** When ordering windows or doors with plaza lite patterns, it is the customer's responsibility to make sure the grilles align in any mulled or combination unit. **Orders for Plaza units with bar spacing other than described above will require a customer approval drawing.**
